

Respond is a large-scale reuse project of the third sector with an acquired expertise in collection and re-distribution of household goods for reuse. Respond improves the quality of life for individuals and families on low income who are in need of housing support.

Respond has developed good community relations with the public, social services and the social housing sector to source and supply goods for reuse.

This leaflet will help to introduce you to our range of services; from House Clearances, to the supply and fitting of Carpets and our PAT Testing service of electrical goods and appliances to keep you up-to-date with government legislation.

HOUSE CLEARANCES

Our friendly teams will leave you clutter free, and will sweep clean any debris. We will make sure you are completely happy with our service before we leave.

Everything we collect from you is either recycled or disposed of legally. We are licensed by the Environment Agency and are fully insured to remove and carry waste.

CARPETS SUPPLY & FIT

Quality and Cost-Effective

For a hard wearing carpet supplied and fitted in a one bedroom flat, the average cost would be £400.

That would be for the living room approximately 4m x 4m, a bedroom of similar size, and a hallway average size of 4m x 1m.

Respond also has a cheaper Cord carpet and a higher quality range.

We will come out to measure and quote, and bring samples. We charge £10 for this service but if a carpet is ordered this will come off the overall cost.

PAT Testing

Respond has an on-site PAT testing service for all electrical equipment and appliances for domestic, community and commercial use. Register now with Respond for your annual checks.
